KEY SELLING STATEMENT

Cube™ is a 12X bronzer which uses a combination of DHA and natural bronzers to achieve fast, dark bronzing results. The bronzers will work with the 5 accelerator complex to give color to the skin within 2 to 3 hours of your tanning session while your natural tan develops. The banana fruit prime enzymes will work in conjunction with vitamins C and E to help the skin achieve the ideal level of moisturization, repair damage caused by environmental factors while also helping to reduce the appearance of fine lines and wrinkles. A light fresh, citrus fragrance compliments any tan!
